

Table of Contents

1. A fast fuzzy finite element approach for laterally loaded pile in layered soils <i>Pham Hoang Anh</i>	1
2. Analytical model for predicting membrane actions in RC beam-slab structures subjected to penultimate-internal column loss scenarios <i>Pham Xuan Dat, Trieska Yokhebed Wahyudi, Do Kim Anh</i>	10
3. Free vibration analysis of sandwich beams with FG porous core and FGM faces resting on winkler elastic foundation by various shear deformation theories <i>Dang Xuan Hung, Huong Quy Truong</i>	23
4. Simplified design method and parametric study of composite cellular beam <i>Nguyen Tran Hieu</i>	34
5. Some microstructure properties at early age of ettringite binder based on rich C ₁₂ A ₇ calcium aluminate cement <i>Nguyen Ngoc Lam</i>	44
6. Study on using maximum amount of fly ash in producing ultra-high performance concrete <i>Van Viet Thien An</i>	51
7. Analysis of spanish social housing policies in the last 16 years and preliminary notes on the applicability of similar solutions to Ho Chi Minh City <i>David Martin Ruiz, Nguyen Quang Minh</i>	62
8. Urban design process with community participation for streetscapes in Hanoi <i>Ta Quynh Hoa, Pham Thuy Loan</i>	74
9. Gentrifications in hanoi city inner: Characteristics, causes and solutions <i>Dao Thi Nhu, Nguyen Quoc Toan</i>	89
10. Street in Hanoi Ancient Quarter as cultural place: A case study of Hang Buom street <i>Le Quynh Chi, Nguyen Thanh Tu</i>	102
11. Evaluation of the quality of drainage sludge in To Lich River basin and the proposal of suitable management solutions <i>Tran Duc Ha, Tran Thuy Anh, Tran Duc Minh Hai</i>	113
12. Optimization to water supply system design and operation scheme in high rise buildings <i>Nguyen Lan Huong, Nguyen Viet Anh, Dang Thi Thanh Huyen, Tran Hoai Son, Dinh Viet Cuong</i>	123
13. Effects of higher maximum speed limits to vehicle speeds: A before - after analysis on rural divided highways in Vietnam <i>Do Duy Dinh, Thai Hong Nam, Vu Hoai Nam</i>	132
