

## Table of Contents

1. Behaviour and push-out test of concrete dowel connectors for longitudinal shear in shallow-hollow composite beams <i>Han Ngoc Duc, Vu Anh Tuan, Nguyen Tuan Dat</i> .....	1
2. Effect of shear modulus on the performance of prototype un-bonded fiber reinforced elastomeric isolators <i>Van Thuyet Ngo</i> .....	10
3. The assessment of concrete quality by ultrasonic pulse velocity <i>Van Viet Thien An</i> .....	20
4. Weight optimization of composite cellular beam based on the differential evolution algorithm <i>Nguyen Tran Hieu, Vu Anh Tuan</i> .....	28
5. Effects of the curing methods on the process of plastic shrinkage of self-compacting concrete in Vietnam <i>Nguyen Hung Cuong, Luu Van Thuc, Tran Hong Hai, Pham Nguyen Van Phuong</i> .....	39
6. A risk assessment framework for construction project using artificial neural network <i>Le Hong Ha, Le Hung, Le Quang Trung</i> .....	51
7. Influence of vertical drains on improving dredged mud by vacuum consolidation method <i>Phan Huy Dong</i> .....	63
8. Towards a socially sustainable city concept in Vietnam - international experience, local policy making and preparatory steps <i>Nguyen Quang Minh</i> .....	73
9. Urban renewal applicable to an increase in density: Conceptualization of compact-KDT in Vietnam with Hanoi as a case study <i>Tran Minh Tung</i> .....	88
10. Comparison of aerosol products retrieved from AERONET and MODIS over an urban area in Hanoi city, Vietnam <i>Bui Thi Hieu, Nguyen Duc Luong, Nguyen Hoang Hiep, Bui Quang Trung</i> .....	99
11. A study on energy consumption of hotel buildings in Vietnam <i>Tran Ngoc Quang, Mac Van Dat</i> .....	109
12. Study on quantification of areal mean precipitation using satellite-gauge merging precipitation <i>Bui Thi Hieu</i> .....	117
13. Factors affecting labour productivity of construction worker on construction site: A case of Hanoi <i>Nguyen Van Tam, Nguyen Lien Huong, Nguyen Bao Ngoc</i> .....	127
