

NATIONAL UNIVERSITY  
OF CIVIL ENGINEERING

JOURNAL OF  
SCIENCE AND TECHNOLOGY IN  
**CIVIL  
ENGINEERING**

ISSN 1859-2996

**Vol.13 No.2**  
**4 - 2019**

#### AIMS AND SCOPE

Journal of Science and Technology in Civil Engineering (STCE) is a specialized scientific journal in the field of construction, which has annually been published with three issues in English under ISSN 1859-2996 and five issues in Vietnamese under ISSN 2615-9058 by the National University of Civil Engineering. The Journal has been published since 2007. The STCE Journal provides a forum for announcing and introducing new researches and application results in the field of construction which have not been previously published or under review elsewhere, including building and industrial construction; bridge and road engineering; coastal, offshore and hydraulic engineering; materials; mechanical engineering; architecture and planning; economics and management; environmental engineering; natural sciences and information technology. All manuscripts submitted to the Journal are subject to a blind peer-review process by at least two qualified researchers or leading experts in Vietnam and abroad. The process for submission, peer-review and publication of a manuscript is conducted via the online system at <http://stce.nuce.edu.vn>.

#### EDITOR-IN-CHIEF Pham Duy Hoa

National University of Civil Engineering, Hanoi, Vietnam

#### DEPUTY EDITOR-IN-CHIEF

#### Pham Quang Dung

National University of Civil Engineering, Hanoi, Vietnam

#### MANAGING EDITORS

##### Phan Quang Minh

National University of Civil Engineering, Hanoi, Vietnam

##### Tran Van Lien

National University of Civil Engineering, Hanoi, Vietnam

##### Dinh Van Thuat

National University of Civil Engineering, Hanoi, Vietnam

#### EDITORIAL BOARD MEMBERS

##### Shingo Asamoto

Saitama University, Japan

##### Nguyen Binh Ha

National University of Civil Engineering, Vietnam

##### Priyan Mendis

University of Melbourne, Australia

##### Nguyen Pham Quang Tu

Institute of Construction Economics, Vietnam

##### Pham Xuan Anh

National University of Civil Engineering, Vietnam

##### Nguyen Ngoc Hue

Vietnam Association of Port, Waterway, Offshore Engineering

##### Tang Anh Minh

Ecole des Ponts ParisTech, France

##### Pham Minh Tuan

Hanoi University of Science and Technology, Vietnam

##### Tran Anh Binh

National University of Civil Engineering, Vietnam

##### Pham Cao Hung

University of Sydney, Australia

##### Tran Thi Viet Nga

National University of Civil Engineering, Vietnam

##### Hoang Tung

National University of Civil Engineering, Vietnam

##### Stefan Catalin

Technische Universität Dresden, Germany

##### Nguyen Xuan Hung

Ho Chi Minh City University of Technology, Vietnam (HUTECH)

##### Tuan Ngo

University of Melbourne, Australia

##### Trinh Van Tuyen

Vietnam Academy of Science and Technology

##### Bui Trong Cau

University of Transport and Communications, Vietnam

##### Nguyen Lien Huong

National University of Civil Engineering, Vietnam

##### Le Thien Phu

Université d'Évry Val d'Essonne, Paris, France

##### Luu Duc Thach

National University of Civil Engineering, Vietnam

##### Vu Duc Chinh

Institute of Transport Science and Technology, Vietnam

##### Telychenko Valery Ivanovich

Moscow State University of Civil Engineering

##### Nguyen Viet Phuong

National University of Civil Engineering, Vietnam

##### Bui Tien Thanh

University of Transport and Communications, Vietnam

##### Ha Minh Cuong

École normale supérieure de Paris-Saclay, France

##### Ikuro Kasuga

University of Tokyo, Japan

##### Christopher Nigel Preece

Abu Dhabi University, Malaysia

##### Le Trung Thanh

Vietnam Institute for Building Materials

##### Ngo Huu Cuong

Ho Chi Minh City University of Technology, Vietnam

##### Nguyen Viet Khoa

National University of Civil Engineering, Vietnam

##### Eldon Raj

IMeDelft Institute for Water Education, Netherlands

##### Dao Nguyen Thang

University of Alabama, USA

##### Pham Hung Cuong

National University of Civil Engineering, Vietnam

##### Dinh Kien

Gensler Inc. Quebec, Canada

##### Tjandra Setiadi

Bandung Institute of Technology, Indonesia

##### Nguyen Dinh Thi

National University of Civil Engineering, Vietnam

##### Dinh Quang Cuong

National University of Civil Engineering, Vietnam

##### Thai Duc Kien

Sejong University, Korea

##### Tran Van Tan

National University of Civil Engineering, Vietnam

##### Nguyen Quoc Thong

Vietnam Association of Architects

##### Chu Van Dat

Vietnam Military Technical Academy

##### Nguyen Ngoc Linh

National University of Civil Engineering, Vietnam

##### Thai Huu Tai

University of Melbourne, Australia

##### Le Thi Bich Thuan

Vietnam Federation of Construction

##### Bui Viet Dong

National University of Civil Engineering, Vietnam

##### Hoang Vinh Long

National University of Civil Engineering, Vietnam

##### Somnuk Tangtermsirikul

Thammasat University, Thailand

##### Nguyen Vinh

University of Technology Sydney, Australia

##### Nghiem Trung Dung

Hanoi University of Science and Technology, Vietnam

##### Nghiem Duc Long

University of Technology Sydney, Australia

##### Bui Quoc Tinh

Tokyo Institute of Technology, Japan

##### Keun-Hyeok Yang

Kyonggi University, Korea

##### Grabovoi Petr Grigorievich

Moscow State University of Civil Engineering, Russia

##### Phung Duc Long

Vietnam Society for Soil Mechanics and Geotechnical Engineering

##### Nguyen Xuan Tinh

Tohoku University, Japan

##### Hiidenari Yasui

University of Kitakyushu, Japan

#### OFFICE SECRETARIES

Phan Thi Thanh Huyen, Nguyen Quynh Le, Nguyen Huong Thao

National University of Civil Engineering, Hanoi, Vietnam

## Table of Contents

1. Free-vibration analysis of multi-directional functionally graded plates based on 3D isogeometric analysis <i>Thai Son, Thai Huu Tai</i> .....	1
2. Static analysis of four-parameter functionally graded plates with general boundary conditions <i>Hoang Thu Phuong, Tran Huu Quoc, Ho Thi Hien</i> .....	12
3. Large displacement elastic static analysis of semi-rigid planar steel frames by corotational Euler–Bernoulli finite element <i>Nguyen Van Hai, Le Van Binh, Doan Ngoc Tinh Nghiem, Ngo Huu Cuong</i> .....	24
4. A 2D model for analysis of rain-wind induced vibration of stay cables <i>Truong Viet Hung, Vu Quang Viet</i> .....	33
5. Weight optimisation of functionally graded beams using modified differential evolution <i>Pham Hoang Anh, Tran Thuy Duong</i> .....	48
6. Application of Hilbert Huang transform to identify the natural frequencies of steel frame <i>Nguyen Thanh Trung</i> .....	64
7. Study on producing light weight concrete with foam glass granules <i>Hoang Vinh Long</i> .....	74
8. Assessment of wastewater management in Mekong River Delta region <i>Dang Thi Thanh Huyen, Trinh Dinh Lai</i> .....	82
9. Evaluation of ion exchange material from sulfonated polystyrene waste synthesized for removal Cr <sup>3+</sup> from aqueous solution by column experiment <i>Pham Thi Thuy</i> .....	92
10. Application of hybrid modified UASB - MBBR technology for wastewater treatment of Sao Thai Duong Pharmaceuticals and Cosmetics Factory <i>Trinh Xuan Duc, Le Anh Tuan</i> .....	101
11. The importance of public spaces to social integration for young migrant workers in Hanoi <i>Le Lan Huong</i> .....	111
