

Table of Contents

1. Mechanical properties of synthetic aggregate pelletized by waste concrete fines in Vietnam <i>Tran Viet Cuong, Ken Kawamoto, Tran Thi Viet Nga, Nguyen Hoang Giang</i>	1
2. Damage identification of trusses using limited modal features and ensemble learning <i>Qui X. Lieu</i>	9
3. Case studies on determining fire resistance of uniaxial bending reinforced concrete columns subjected to 4-side standard fire exposure <i>Dang Viet Hung, Nguyen Thi Nguyet Hang, Vu Ngoc Linh, Nguyen Truong Thang</i>	21
4. Creep behaviour of saturated clay subjected to cyclic loading in plain strain condition <i>Nguyen Ngoc Thang</i>	35
5. A three-stage framework for efficient deployment of intelligent transportation systems in urban areas <i>Dinh Van Hiep, Tran Hoai Nam, Dang Trung Kien, Do Duy Dinh, Tran Manh Hung, Sangmin Lee</i>	47
6. Development of new rotation pile technology mirai pile [®] and preliminary study in Vietnam on construction <i>Marina Kawai, Hoang Giang Nguyen, Dung Nguyen Tien, Thanh Son Nguyen, Van Minh Pham</i>	62
7. Reuse of agrowastes for dewatering enhancement of sewer sediments for brick production <i>Nguyen Xuan Huan, Dang Thi Thanh Huyen, Pham Thi Ngoc Lan, Tran Thuy Anh, Tran Thi Huyen Nga, Hoang Duc Quyen, Pham Thi Thuy, Nguyen Manh Khai</i>	70
8. Numerical analysis of compressive behavior of circular concrete filled steel tubular columns with high to ultra-high strength materials <i>Hao Dinh Phan, Lien Kim Thi Dao</i>	83
9. Towards a generalized surrogate model for truss structure analysis using graph learning <i>Dang Viet Hung, Nguyen Trong Phu</i>	99
10. Effects of intergranular friction and grain size distributions on the initial void ratio of granular sample <i>Trung-Kien Nguyen, Thanh-Trung Vo</i>	110
11. Building drought classification map with landsat 8 image data in Bac Binh district, Binh Thuan province <i>Luu Thi Dieu Chinh, Ha Thi Hang, Bui Duy Quynh, Dao Duy Toan</i>	120

12. A data-driven approach for investigating shear strength of slender steel fiber reinforced concrete beams	
<i>Tran Van Quan, Nguyen Hoang Giang, Nguyen Ngoc Tan</i>	133
13. Crushed construction and demolition waste as reactive media in permeable reactive barriers to immobilize Pb(II) and Cd(II) from landfill leachate	
<i>Nguyen Lan Huong, Bui Xuan Khanh, Tran Thi Viet Nga, Nguyen Tien Dung</i>	145
14. A systems-based approach to deeply examine a downgrade-truck crash caused by a brake failure in Vietnam	
<i>Do Duy Dinh, Vu Hoai Nam</i>	154
15. Comparison of energy consumption, CO ₂ emissions between normal concrete and UHPC in rural bridge application	
<i>Tong Ton Kien</i>	168
16. Research on anti-separation and anti-overturning of concrete block structures of a spillway with a protruding head during construction	
<i>Mai Sy Hung</i>	180
17. Study of dynamic response of crane system via surrogates based on Karhunen–Loève expansion and neural networks	
<i>Van-Hai Trinh</i>	193
