

Table of Contents

1. An empirical analysis for estimating the implementation duration of road work projects in low- and middle-income countries <i>Dinh Van Hiep, Jamshid Sodikov, Ibragim Sadikov, Quvonchbek Musulmakov, Vu Ngoc Tru</i>	1
2. Study on the application of TLS for bridge deflection inspection in Vietnam <i>Vu Dinh Chieu, Luong Ngoc Dung, Cu Viet Hung, Vu Ngoc Quang, Bui Ngoc Son</i>	14
3. Transient analysis of functionally graded plates using extreme gradient boosting <i>Dieu T. T. Do, Son Thai</i>	26
4. Experimental study on the behavior of eccentrically compressed corrosion-damaged reinforced concrete columns <i>Nguyen Manh Hung, Nguyen Trung Hieu, Nguyen Van Tuan, Pham Xuan Dat</i>	37
5. Flexural-shear strengthening of reinforced concrete T-beams subjected to asymmetric loading using CFRP system combined by NSM strips and U-wraps <i>Nguyen Dang Nguyen, Dang Tung Lam, Nguyen Ngoc Tan</i>	48
6. Simplified approach for quantitative analysis of hardened concrete microstructure using auto-correlation function <i>Vu Chi Cong</i>	66
7. Numerical simulation for the flexural response of large-span UHPFRC prestressed composite box girder <i>Viet-Chinh Mai, Xuan Dai Nguyen, Canh Duc Nguyen</i>	80
8. Development of a procedure for model selection in machine learning-based methods for structural damage detection <i>Ha Manh Hung, Nguyen Long, Dang Viet Hung, Dinh Van Thuat</i>	95
9. Causes of safety risk during tower crane operations on construction sites in Vietnam <i>Ngo Thanh Long, Nguyen Hoang Giang</i>	109
10. Application of the bayesian model averaging algorithm in evaluating and selecting optimal salinity prediction models <i>Bui Duy Quynh, Ha Thi Hang, Duong Cong Hieu, Tran Xuan Truong, Luu Thi Dieu Chinh</i>	122
11. Renovating outdoor space of public schools in Hanoi towards green building criteria <i>Hoang Nguyen Tung, Chu Ngoc Huyen, Tran Quang Dung, Pham Van Toi, Le Hong Ha</i>	137
