5 - 2026

**AIMS AND SCOPE**

Journal of Science and Technology in Civil Engineering (JSTCE) is an international, peer-reviewed journal dedicated to advancing knowledge and innovation in civil and construction engineering. Published quarterly in English by Hanoi University of Civil Engineering (HUCE) (p-ISSN 1859-2996 | e-ISSN 2734-9268), the journal serves as a platform for disseminating high-quality research and practical applications in civil engineering and related fields. JSTCE welcomes original research articles and reviews that address contemporary challenges and emerging trends in science, technology and sustainable development of the construction industry. The journal particularly encourages interdisciplinary and innovative contributions with strong theoretical foundations and real-world implications. The journal covers a wide spectrum of topics, including but not limited to: structural, building and industrial engineering; bridge, road and transportation engineering; coastal, offshore and hydraulic engineering; advanced construction materials and mechanical engineering; architecture, urban design and planning; construction economics, management and project delivery; environmental engineering and sustainability; digital technologies in construction (e.g., BIM, AI, simulation and computer science applications).

**JOURNAL RECOGNITION AND SUBMISSION**

Since 2019, JSTCE has been recognized as a prestigious national journal by the National Science and Technology Development (NAFOSTED). All submissions undergo a rigorous double-blind peer-review process by at least two independent experts. Manuscript submission, peer review and publication are managed through the journal's online system: <https://stce.huce.edu.vn/index.php/en>.

## Table of Contents

1. Deep learning for classifying and predicting risk factors in retrospective construction fatality reports <i>Ali E. Esmail, John Gambatese</i> .....	1
2. Construction project leaders' perceptions of respirable crystalline silica exposure and control: A safety leadership perspective in the UK social housing sector <i>Scott McGibbon, Billy Hare</i> .....	14
3. The impact and challenges of digitalising critical energy infrastructure in maritime ports: A qualitative study <i>Emmanuel Itodo Daniel, Ezekiel Olatunji, Christiana Ada Adah, Louis Gyoh</i> .....	29
4. Cross-dwelling validation of indoor environmental monitoring for operational risk screening in social housing portfolios <i>Thuy-Hien Thi Nguyen, Ruoyu Jin, Weifeng Chen, Lu Gan</i> .....	44
5. Exploring the potential of <i>Senilia senilis</i> shells as a partial replacement for fine aggregate in hollow concrete block production <i>Gideon Bamigboye, Emmanuel Onwusiribe, Adebisi Ogundipe, Kayode Jolayemi</i> .....	55
6. Thermal-related occupant behaviors in highrise apartments: Evidence from a large scale survey in Hanoi and Ho Chi Minh City <i>Nguyen Thi An Anh, Pham Thi Hai Ha, Nguyen Thi Khanh Phuong, Michael Waibel</i> .....	65
7. Health and safety training in a multilingual construction workforce: Evidence from South Africa <i>Emma Ayesu-Koranteng, Arun Garg, Ayo Adeniran</i> .....	86
8. Reimagining facility management: A critical shift towards proactive OM&R safety <i>Nicholas Tymvios, Jake Smithwick</i> .....	103
9. Perceived barriers to digital technology adoption in UK construction: Evidence from Clerk of Works, Construction Inspectorate and Quality Control Management <i>Helen Matykiewicz-Chang, Paul Hampton</i> .....	116
10. Socio-ecological resilience in smaller communities – A case study of a rural hub in Sweden <i>Rebecka Lundgren, Annika Falkstedt, Riikka Kyrö</i> .....	128
11. Understanding labour productivity in reinforcement works through real-life data analysis and simulation <i>Michał Juszczyk</i> .....	143
12. Digital innovations in construction health and safety: A systematic literature review <i>Silpa Abraham, Chandana Siriwardana</i> .....	156
